Lifelong Learning

Through a remarkable interplay of Automation and Education, we increase productivity and employability world-wide

The background of the slide is a composite image. On the left side, there is a close-up portrait of a young woman with light brown hair, green eyes, and freckles. She is looking slightly to the right of the camera with a neutral expression. The right side of the background is a blurred industrial setting, likely a factory or laboratory, with various pieces of machinery and equipment in shades of grey and white.

Festo Learning Experience

The Online Portal for Individual Learning Experiences

About Festo Learning Experience

Features a vast library of **didactic learning courses** for technical education

Is based on multimedia learning **nuggets** which can be adapted and combined to form **individual learning paths**

Helps educators to access and **build** industry aligned **content easier** and quicker

Combines **eLearning** courses and **practical exercises** for learners to gain **employability** in the high-tech industry

Combines **industry expertise** with **didactic know-how** to create unique learning experiences that **match industrial requirements**

Puts the **learning experience** in the focus

Gives **course recommendations** based on your Festo Didactic learning hardware

Allows you to **learn** and **prepare whenever** and **wherever** you want using **mobile devices**.

How Festo LX works

01

Create courses

Use existing or your own content to create individual courses. With the competency management and equipment management functions, you create tailor-made courses in no time.

02

Assign courses

Invite your students into groups and assign the selected content to the entire group or individual students.

03

Start Learning

Students work on their courses wherever and whenever they want. Integrated animations, videos, theory modules, practical tasks or project work keep students motivated.

04

Monitor progress and support

Easily keep an eye on learning progress and support learners individually. Based on the observations, learning content can be adapted at any time.

05

Assessment and Success

Integrated tests provide information about the newly acquired skills and the learning level of the group.

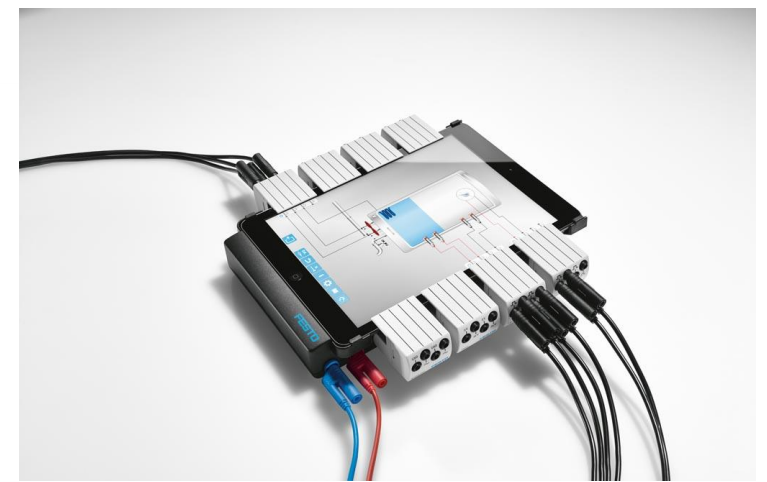

Learning Content on the Portal

The portal offers a variety of different learning formats and contents

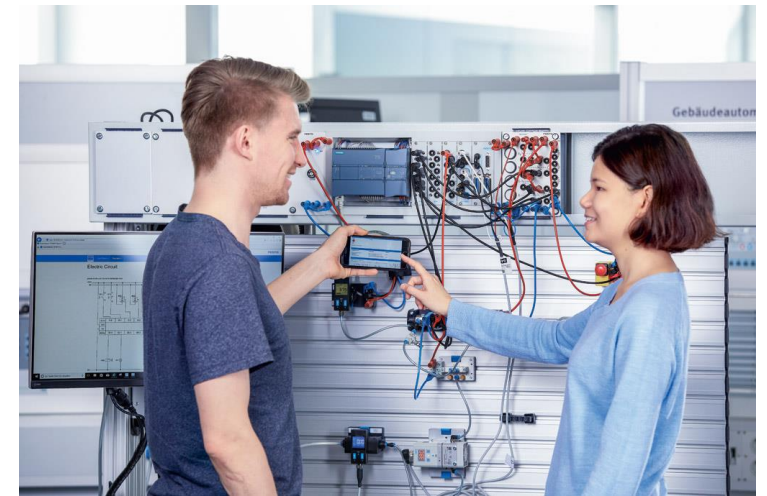

- › **Standalone eLearnings**
Interactive multimedia online courses
- › **eLab courses**
Learning Hardware-related hands-on courses
- › **Simulations**
Hybrid learning with simulation hard- & software
- › **Evaluations**
Online learning assessment and reporting
