

Blueprint Alignments

Health Sciences & Public Services

Dental Assisting
Diagnostic Services
ECG Technicians
Health Assisting

Nursing Assisting
Practical Nursing
Therapeutic Services

zSpace provides a suite of applications to provide self-study experiences, hands-on laboratory dissections, and ECG certification preparation.

Students understand more deeply with 3D-interactive experiences and their engagement soars.

zSpace and NOCTI combined for students to potentially earn up to 33 industry credentials.

VIVED Anatomy by VIVED is a high quality visual and interactive software for learning anatomy in 3D. It enables users to view the human body and perceive spatial relationships like never before.

Human Anatomy Atlas by Visible body is an award-winning human anatomy general reference application. Students can explore bodily systems, over 4,600 anatomical structures, musculoskeletal animations, and thousands of quizzes.

Virtual ECG by Vizitech allows students to practice ECG electrode placement, understand the relationship between electrode placement and the ECG strip, and study abnormal ECGs.

True 3D Scholar by EchoPixel is a proprietary software application that enables a user to visualize and interact with CT and MRI DICOM image data to assist in medical education *

Criminal Justice by Certify-ED allows students to process a crime scene to its fullest extent. Students will explore the areas and talk to witnesses prior to entering the scene.

Dental by Leopoly supports dental assistant students with a variety of 3D experiences for lifelike dental training. Examine virtual living body structures, discover relationships between various organs, and learn about dental problems and procedures.

Biotechnology by Certify-ED provides the students with a solid foundation in biotechnology. Learn about biotechnology career paths, research, data analysis, laboratory safety, and the use of laboratory equipment.
